

Introducing the
ACADIA
collection
by
angela adams

Named for Acadia National Park, the crown jewel of Maine, the new Acadia collection by angela adams features a subtle blend of colors that evoke the natural textures and palette of the Atlantic coastline. The lightweight, machine-woven construction and UV stable materials make the Acadia rug ideal for indoor or outdoor living spaces. Suitable for both residential and commercial spaces.

Machine woven in Belgium.

The Acadia collection features the mineral palette of coastal granite, the warm glow of the sunrise and dusky blue hue of coastal fog. We envision these rugs in kitchen and dining areas, playrooms, mudrooms, restaurants and hospitality interiors. The possibilities are endless with this timeless collection and state of the art construction.
